

SUCCESS IN SIMPLICITY

When developing Everyday Amino™, we looked at what was required in a continual use recovery and endurance product and added nothing more. Devoid of common amino fillers such as glycine and alanine, Everyday Amino™ packs 3.5 grams of premium AminoBlast® branched chain amino acids in a 5:1:1 ratio for recovery and one gram of fructooligosaccharide (FOS) dietary fiber for digestion and regularity.

Everyday Amino™ usage: Mix one serving in 8 oz. of cold water in a shaker or glass. For anytime flavor splash, mix one serving in your water and enjoy as needed. If necessary, you may adjust the water level to achieve your desired level of sweetness and flavor.

WARNING: Everyday Amino™ is intended only for healthy adults over the age of 18. Do not use if you are currently pregnant or nursing, could be pregnant, or are attempting to become pregnant. Consult a licensed healthcare practitioner before using this product. Discontinue use and contact a doctor immediately if you experience an irregular or rapid heart beat, chest pain, shortness of breath, dizziness, lightheadedness, fainting or presyncope, tremors, headache, nausea, or other similar symptoms. If you are a performance athlete, please check with your sanctioning body prior to use to ensure compliance.
