SHILAJIT is an ancient, rare, resinous substance found in the Himalayan Mountains in northern India, Nepal, and Tibet. Ayurvedic texts over 5,000 years old discuss uses for this special compound, and many herbalists consider shilajit to be the most important tonic substance in traditional Ayurveda. The word "Shilajit" in the ancient Sanskrit language means "conqueror of mountains and destroyer of weakness."

Integrity Extracts™ Shilajit is gathered from a pristine, high elevation region in India and then filtered and concentrated via a unique, full-spectrum water extraction process into a nutrient-rich powder. The powder is then tested for identity, pesticides, microbials, heavy metals, solvent residues, and fulvic acid (verified 50%+content) to assure the highest level of purity and potency. Certified vegan, kosher, and gluten-free.

SUGGESTED USE: Take 2 VeganCaps™ per day, or as advised by a qualified health care professional. Consume with conscious, positive intent.
