LD Liposomal Delivery™ protects colostrum from harsh stomach acids and delivers critical bioactives all the way to the cellular level for optimum proven performance.†

Rediscovering Colostrum

It's been more than 25 years since I rediscovered bovine colostrum to help support my wife, Kaye's immune system. Colostrum's immune and growth factors helped bring her immune system back into homeostasis, and with daily colostrum, Kaye was able to address many of her health challenges.

Our journey taught us that the quality and effectiveness of colostrum is vitally important, and so I worked to set the industry standards in terms of how colostrum is collected and processed. Our minimally processed formula is suitable for lactose-free diets. I created Colostrum-LD® for Kaye, and since then, millions of people worldwide have benefitted. It is my genuine hope that Colostrum-LD® becomes part of your daily regime for a long and healthy life.

Douglas Wyatt

Superior Quality

Colostrum-LD® is collected from the first milking of Grade A dairy cows that are not supplemented with rBST, BSE and antibiotic-free. Colostrum-LD® is tested for a wide range of bioactives. It is then micronized and coated with bio-identical liposomal lipids extracted from milk and sunflower oils. Proprietary LD Liposomal Delivery™ is available only from Sovereign Laboratories. LD protects the living immune and growth factors from oxidation during storage, prevents their breakdown while transiting through the stomach, and delivers these vital biological nutrients at the cellular level throughout the body and across the blood-brain barrier. Without LD, colostrum has little efficacy, but with LD, Colostrum-LD® is up to four times more effective than non-liposomal colostrum.

Some people may experience a normal Herxheimer cleansing action short-term which can cause temporary diarrhea and flu like symptoms. If symptoms persists, contact your licensed medical professional for health advice.

Many of our customers use Colostrum-LD® as follows:

- **For Immune and GI health:** 1-2 tsp. twice a day.
- **Anti-Aging:** 1-2 Tbsp. twice a day.
- **To help maintain balanced blood sugar levels between meals:** 1 Tbsp. between meals.
- **Athletic Performance:** 2 Tbsp. prior to work out and again one hour prior to bed.
- **Healthy Looking Skin:** 1-2 tsp. twice a day.
- **Pets:** ½ - 2 tsp. depending on need and size. Mix in small amount of water prior to meal.

12 oz. [340.17g] (68) Vanilla 5,000mg Servings

Sovereign Laboratories

Directions for Use: Mix with 4 oz. plain luke warm water and drink on an empty stomach. Wait 20-30 minutes before eating.

Suggested Uses:

General Use: 1 tsp. twice a day.

Advanced Use: 2 tsp. twice a day.

Optimum Use Times: first thing in AM and one hour prior to bed. The bio-identical growth hormones and factors in Colostrum-LD work their best to promote the health of body tissue during sleep. **For more flavor:** Just add an ice cube if desired, ½ tsp organic cocoa powder for chocolate, 2 strawberries or a few blueberries and stevia to taste. For infants and toddlers mix in with water or formula, yogurt or applesauce. Do not mix with any acidic or hot beverages such as coffee or orange juice.
