## SHAKE WELL - REFRIGERATE AFTER OPENING

ENDORUSH® IS AN ULTRA-PREMIUM ENERGY AND PERFORMANCE SUPPLEMENT STRICTLY INTENDED FOR USE BY HEALTHY ADULT INDIVIDUALS AND IS NOT RECOMMENDED FOR CHILDREN. EXERCISE CAUTION WHEN USING ENDORUSH® IN DIRECT COMBINATION WITH ANY OTHER CAFFEINE - OR STIMULANT - CONTAINING PRODUCTS. EACH BOTTLE CONTAINS 3 SERVINGS AND IS INTENDED TO BE CONSUMED OVER THE COURSE OF A FEW HOURS OR MORE. TO AVOID SLEEPLESSNESS, DO NOT TAKE WITHIN 4 HOURS OF BEDTIME. DO NOT CONSUME MORE THAN 2 BOTTLES PER DAY.

RECOMMENDED USE: As a dietary supplement, always shake well before use and begin by consuming 1/2 bottle (approx. 4 oz) or less. Wait 30 minutes to assess your tolerance. If desired, after 30 minutes consume an additional 1/4 bottle or less and assess your tolerance again. Consuming ENDORUSH® on an empty stomach may intensify its effects and reduce your tolerance.

NOTE: Some settling may occur due to the solubility of the amino acids contained in ENDORUSH®.

WARNING: ENDORUSH® is strictly intended for use by healthy adults 18-50 years of age. Before consuming ENDORUSH® seek advice from a physician if you are smokers or your current health condition. This product contains caffeine. DO NOT use ENDORUSH® if you have any pre-existing medical condition including but not limited to: high or low blood pressure, stroke, cardiac arrhythmia, heart, liver, kidney, or thyroid disease, recurrent headaches, anxiety, depression, seizure disorder, psoriasis or epileptic disorders, diabetes, peripheral vascular, difficulty urinating, enlarged prostate or glaucoma, or if you are taking an MAO inhibitor, anti-depressants, or other medications or over-the-counter drugs containing stimulants. DO NOT use and consult with a physician if you are pregnant, nursing, or contemplating pregnancy, prone to dehydration, or exposed to excessive heat. Discontinue use and call a physician immediately if you experience chest pain, dizziness, dizziness, severe headaches, nausea, an irregular heartbeat, or shortness of breath. Consume a minimum of 120 ounces of water daily in conjunction with a healthy diet. Discontinue 2 weeks prior to surgery. After 6 months of consecutive use discontinue for at least 4 weeks. Keep out of reach of children and pets and others for whom use of this product is not strictly intended. Use only as directed. Combining ENDORUSH® with alcohol may increase the risk of low blood pressure (hypotension) and/or low blood sugar (hypoglycemia) particularly in the elderly state. Please be aware this product contains the naturally occurring amino acid Beta-Alanine, which may cause a tingling skin sensation in some individuals similar to niacin flush. This effect should diminish after a few hours and should ultimately subside after days of continuous use. Although rare, individuals with the genetic disorder hyperhomocysteinemia should not use this product. Store in a cool dry place away from direct sunlight. No such caffeine may cause nervousness, irritability, sleeplessness, and occasionally rapid heart beat. Not recommended for use by children under 18 years of age.

Consumer is responsible for ensuring that his/her use of this product complies with the rules and regulations of all governing bodies or other entities having jurisdiction over any sport or athletic activity in which he/she participates as well as any cancer regulations. User assumes all risks, liabilities, and consequences related to any and all non-compliance issues that may arise by these entities.
