LIQUID HERBAL EXTRACT

BLACK COHOSH

Cimicifuga racemosa
Rhizome & Rootlets

HERBAL DIETARY SUPPLEMENT
8 4 Fluid Ounces (116.4 mL)

We prepare Black Cohosh extract from the rhizome & rootlets of *Cimicifuga racemosa* plants which are **Certified Organically Grown** especially for us in their native forest habitat in eastern Kentucky.

To assure optimal extraction of Black Cohosh's isoflavones & other bioactive compounds, the rhizome & rootlets are hand-dug only in late autumn or early spring, are carefully shade-dried, and are then thoroughly extracted.

Our Black Cohosh is never fumigated or irradiated.

Dry herb / menstruum ratio: 1 : 5

Contains certified organic grain alcohol (76-86%), distilled water & Black Cohosh extractives.
