WHY CHOOSE GREAT LAKES GELATIN COMPANY'S COLLAGEN?

Our Collagen, made of ONE simple ingredient is a dietary supplement with a beneficial combination of amino acids. Great for anyone looking to improve their overall well-being.

COLLAGEN HYDROLYSATE: Collagen is nearly tasteless, colorless and odorless, and it is easily digested. It will not congeal in cold liquids making it a perfect addition to cold and hot beverages, smoothies or recipes. Just mix in and enjoy!

RECOMMENDED USES: Great Lakes Collagen will easily dissolve in your favorite beverages such as coffee, tea, juice or a smoothie.

RECOMMENDED DOSAGE: Take two rounded tablespoons (12g) twice a day. For best results use daily.

NOTICES:

Collagen protein does not count toward the FDA recommended Percent Daily Value for protein because it lacks one essential amino acid: tryptophan. Do not use if flap seal is torn or punctured. If you are pregnant, nursing or have a medical condition, consult your physician before use. Variations in color, odor, taste and solubility may occur. Product is packed by weight not volume, settling will occur.
