SUGGESTED USE

LIQUID HERBAL EXTRACT

BLACK WALNUT

Juglans nigra
Fresh Green Hull

HERBAL DIETARY SUPPLEMENT
4 Fluid Ounces (118.4 ml)

We prepare our Black Walnut Extract from the fresh (undried) fruit hulls of *Juglans nigra* trees which are Custom Wildcrafted™ in their natural wild habitat.

To assure optimal extraction of Black Walnut's bioactive compounds, the fruits are hand-harvested only in early autumn when their hulls are still green but are beginning to soften. The hulls are removed from the outside of the fruits and are then promptly extracted while still fresh and succulent.

Our Black Walnut is never fumigated or irradiated.

Fresh herb / menstruum ratio: 1 : 1.25

Contains certified organic grain alcohol (37-47%), vegetable glycerine, acetic acid (0.352%) & Black Walnut extractives.
