

Aging, stress, poor diet, x-rays, alcohol, and many other frequently-encountered substances can deplete the probiotic cultures that inhabit the human gut. Such depletion can lead to gas, bloating, occasional constipation, and poor digestion. To address the unique needs of seniors, PB 15/35™ combines 15 probiotic strains (at least 35 billion active cultures per capsule[†]).

Storage: To assure maximum potency, please keep this product refrigerated.

Caution: Consult your physician before using this or any product if you are pregnant, nursing, trying to conceive, taking medication or have a known medical condition. Please keep all supplements out of children's reach.

Guarantee: PB 15/35™ does not contain artificial colorings or flavorings, GMOs, soy, dairy, gluten, or wheat, and is suitable for vegetarians. We guarantee our products to your complete satisfaction. If you are anything but delighted, please return the unused portion of your product with receipt to your retailer.
