We prepare our Boneset Extract from the leaf & flowering tops of *Eupatorium perfoliatum* plants which are **Certified Organically Grown** on our own farm without the use of chemical fertilizers, pesticides or herbicides or are **Custom Wildcrafted™** in their wild native habitat.

To assure optimal extraction of Boneset's bioactive compounds, the plants are hand-harvested only when coming into flower, are carefully shade-dried and cleaned of superfluous stems, and are then thoroughly extracted.

Our Boneset is never fumigated or irradiated.
