ABOUT MINERAL DIGESTIVE SWEEP™**

The Digestive Sweep formula in this program contains magnesium hydroxide.*

HOW IT WORKS: Magnesium hydroxide encourages elimination by drawing water into the intestine, causing waste material to soften and swell, and creating pressure in the colon.* This results in stools which are easier to pass.*

ADVANTAGES: Magnesium hydroxide works in a gentle, non-stimulating manner.

ALTERNATIVE: Some individuals may need stronger action to encourage bowel movement.* For this purpose, Thisilyn® Cleanse is also available with an Herbal Digestive Sweep™** containing cascara sagrada rather than magnesium hydroxide.
