To assure optimal extraction of Butcher's Broom's bioactive compounds, the rhizomes are hand-dug only in late autumn or early spring, are carefully shade-dried, and are thoroughly extracted.

We prepare our Butcher's Broom Extract from the rhizome of *Ruscus aculeatus* plants which are Custom Wildcrafted™ especially for us in their wild native habitat.

LIQUID HERBAL EXTRACT

BUTCHER'S BROOM

Ruscus aculeatus
Whole Rhizome

HERBAL SUPPLEMENT

1 fluid ounce (29.6 ml)
