DIETARY SUPPLEMENT

NET WT 2 LBS (907 g)

SUGGESTED USE: Take Two (2) scoops of Hydration Fuel with 12 to 24 oz. of water prior to your activity. Drink multiple servings per day as necessary to keep your body hydrated.

Hydration Fuel is a clean and healthy performance based electrolyte blend intended to be used by all ages.

FAMILY FIRST

At Ryno Power we are committed to using the highest quality, natural, and safe ingredients. We wanted to offer a performance hydration drink that you can trust, drink everyday, and feel comfortable giving to your children and team members. We have all the best ingredients you need to compete at the highest level.*

BCAA'S

When you are training to develop a stronger, more powerful body, it is essential to stimulate and fuel your muscles at the cellular level. BCAA's are a safe and natural way to reduce muscle fatigue, speed recovery, decrease the loss of other amino acids from muscle during exercise and help the body absorb protein.*

ELECTROLYTES

Sweating is your body's natural way of cooling itself. If you are lacking Electrolytes, your body will stop sweating, slowing core temperature to rise and in extreme cases, cause heat stroke. Electrolytes are essential for keeping your body functioning properly during any activities you are involved in throughout the day.*

D-RIBOSE

D-Ribose is an all natural ingredient and already occurring in the body. D-Ribose fuels ATP which acts as the motor of the cell. When our bodies are stressed by exercise, cells cannot recover until enough Ribose is made to produce ATP. D-Ribose allows your cells to function at a higher level because they don't need to look for fuel.*

INGREDIENTS: Non-GMO Glucose Polymers from Corn (Ascorbic Acid), Creatine Monohydrate, Organic (Evaporated) Cane Juice, SCAA Muscle Recovery Blend (2:1 L-Leucine, L-Isoleucine, Valine), L-Glutamine, D-Ribose, Non-GMO Natural Flavors, Electrolyte Blend (Sodium Chloride, Tri-Sodium Phosphate, Potassium (as Potassium Citrate), Calcium (as Calcium Citrate), Magnesium (as Magnesium Citrate), Vitamin C, Zinc, Vitamin D3, Beta-Natural Colors from Fruits and Vegetables.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

WHAT IS GLUTAMINE?

Glutamine is a naturally occurring amino acid in your body. During intense training, Glutamine levels are greatly depleted, which decreases strength, stamina and recovery. With 2.5g of Glutamine in Hydration Fuel, we keep your levels where they need to be for maximum performance.*

BEFORE: Hydrate and Fuel your body with the proper nutrients before you exercise.

DURING: Keep your body functioning at optimal levels with electrolytes and carbs.

AFTER: Repair and replenish the nutrients that were lost in your activity.
