To assure optimal extraction of Cactus' bioactive compounds, we hand-harvest only the young tender stems which are then taken directly to our laboratory and promptly extracted while still fresh and succulent.

We prepare our Cactus Extract from the fresh (undried) young tender stems of *Selenicereus* spp. cactus which are **Custom Wildcrafted™** in their natural wild habitat.

006

LIQUID HERBAL EXTRACT

CACTUS GRANDIFLORUS

Selenicereus spp.
Fresh Tender Stem
