

Genestra HMF (Human Microflora) Probiotics offer:

- Clinically studied, proprietary strains
- Doctor-recommended for over 20 years
- Research-driven, condition-specific formulas
- Potency guaranteed through expiration

Recommended Dose: Take ¼ sachet 4 times daily or as recommended by your health professional. Take with food or immediately after meals. Completely dissolve powder in ¼ glass of cold water or juice. Allow fizzing to stop before drinking. **Warning:** To be taken only on the advice of your healthcare practitioner. Not to be used following vigorous exercise or acute dehydration (unless administered with an appropriate balance of other mineral salts). Not to be taken if you have hyperkalemia or abnormal kidney function, or take ACE inhibitors or potassium sparing diuretics. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use. If you experience numbness of the extremities, muscle weakness, paralysis, cardiac arrhythmias, low blood pressure or confusion, stop use and consult your health professional immediately. May cause nausea, vomiting, diarrhea and abdominal cramps; stop use and consult your health professional if these symptoms are severe. **Keep out of the reach of children.** Use only if safety seal is intact. Store under refrigeration (below 46 °F).
