To assure optimal extraction of Celandine's bioactive compounds, the plants are hand-harvested while in full flower and are then taken directly to our laboratory and promptly extracted while still fresh and succulent.

We prepare our Celandine Extract from fresh (undried) whole *Chelidonium majus* plants (flowering herb with root) which have been **Certified Organically Grown.**

LIQUID HERBAL EXTRACT

CELANDINE

Chelidonium majus
Fresh Whole Plant

HERBAL SUPPLEMENT
