

TRUTH

We pledge total truth in labeling. Our family of products contain only the purest and most potent ingredients. **Guaranteed.**

Nattokinase is a fibrinolytic enzyme produced from Natto, a Japanese fermented soy food. The Nattokinase in this formula has high enzyme activity providing 20,000 fibrin units (FU) per gram and is free of Vitamin K. The Plus in this formula is the inclusion of another fibrinolytic enzyme, Serratiopeptidase with Rutin, a flavonoid that acts as an antioxidant and free radical scavenger to support capillary strength and vascular health.* Enteric coated capsules ensure intestinal absorption.

This product is vegetarian and free of citrus, corn, gluten and yeast.

Warning: If you are pregnant, nursing, or have blood-clotting disorders or are taking anti-coagulant medications such as Coumadin (Warfarin), do not take this product without consulting your health care professional.

Keep out of reach of children. Store in a cool, dry place.
