

How It Works: DynaMAX is designed to be fast-acting when taken on an empty stomach, and provides sustained energy without a crash. It contains Dynamine™ and L-theanine, which make caffeine more effective while smoothing out its effects. DynaMAX contains instant, extended, and delayed release caffeine; therefore, **DO NOT** mix it with other caffeinated products, and **DO NOT** take more than two capsules per day.*

Disclaimer: Keep out of reach of children. Do not take this or any other supplement if under the age of 18, pregnant or nursing a baby, or if you have any known or suspected medical conditions, and/or taking prescription drug(s) or OTC medication(s).
