RENEW LIFE
The Digestive Care Company

Buddy Bear™ Kids' Products are formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of five natural healthcare clinics specializing in digestive care.

Buddy Bear™ Fiber contains soluble acacia fiber and larch fiber to support healthy elimination and promote healthy blood sugar levels* in a great-tasting chewable bear tablet.

Fiber provides numerous health benefits for growing children. Fiber supports healthy bowel movements by absorbing toxins in the digestive tract and helping to "sweep" those toxins from the body.* It also stimulates the movement of food through the intestines and lubricates the bowel to help ease elimination.*

In addition, fiber helps manage your child's hunger naturally and promotes less snacking throughout the day.*

Brenda Watson recommends that children older than 2 years of age consume their age plus 5 in grams of fiber each day.
Example: 8 years old + 5 = 13 grams of fiber/day

Contains no yeast, wheat, corn, rye, gluten, soy, salt, animal products or dairy

Quality and Purity Guaranteed
