Directions: As a dietary supplement, add 1 scoop to 8-12 ounces of water and stir, once or twice a day.

Description: Biosyntrx Sight C+ is designed to meet the needs of those who prefer to supplement with more than the standard RDI amount of vitamin C. To help lessen the gastric upset sometimes associated with large doses of vitamin C, Sight C+ is buffered with calcium, magnesium and potassium. Boron and vitamin D are included to enhance bone calcium absorption. Vitamin C is the body's premier water soluble antioxidant, providing ocular and full body protection against environmental toxins. It's essential for wound healing, immune functions, neurotransmitter and hormone production, and for the formulation of collagen, cartilage and bone.*
