

***Directions:** Take one or two softgel caps daily with meals, particularly on days that cold-water fish is not included in diet.

***Description:** ZōOmega-3 is a special concentrate from cold-water fish, 300 mg of EPA (eicosapentaenoic acid) and 200 mg of DHA (docosahexaenoic acid) in each 1000 mg capsule (almost twice the amount of EPA and DHA found in most fish oil products). The ocular and whole body benefits of supplementing with EPA and DHA have scientific and medical acceptance, as well as a recent endorsement by the United States Food & Drug Administration (USFDA). ZōOmega-3 is manufactured to current good manufacturing standards (cGMP) and has no mercury or PCB's.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
