

Liver Powder Beef

Natural Glandular

Provides liver powder. Lyophilized.

Our natural glandular material is derived from government-inspected, range-fed animals, raised in New Zealand and Australia, whose animal husbandry regulations are among the strictest in the world. The material is lyophilized, which means it is immediately frozen, then subjected to a high vacuum that vaporizes moisture directly from the solid state.

Formulated by Dr. Nicholas Gonzalez M.D.

Suggested Use

As a dietary supplement, 1 teaspoon one to three times daily with meals, or as directed by a healthcare practitioner

Keep in a cool, dry place, tightly capped.
