FRS
healthy energy®

The advantage FRS Healthy Energy has over other energy drinks is simple. FRS is fueled by Quercetin, a powerful antioxidant that activates the body's energy-producing mechanisms — so you can stay at your best longer.

Quercetin is found in foods like blueberries, apples and grapes. It works by naturally triggering the body's ability to produce more real energy. The more energy your body creates, the longer you're able to push. And the longer you can push, the farther you'll go from a minor workout to a major marathon.*

Source: Flavonoid content of fruits from USDA Flavonoid Database using 1/2 cup serving size and 140g weight for apples. Flavonoid composition varies among products compared.
