

Restore-Biotic™ FOS

Fructooligosaccharides (FOS) are short-chain polymers comprised of D-fructose and D-glucose. They are not metabolized or absorbed by the body like simple sugars, and have minimal caloric value.

Non-dairy and gluten-free.

Suggested Use

As a dietary supplement, ½ teaspoon (1.25 grams) mixed in water if desired, two to four times daily between meals, or as directed by a healthcare practitioner.

CAUTION: Some individuals taking FOS may experience gastrointestinal bloating that persists longer than 1-2 weeks, possibly due to unfriendly microbes feeding on FOS. In such cases, this product should be discontinued.

Keep in a cool, dry place, tightly capped.
