

To Move and To Motivate*

NEW AND IMPROVED MOTIVATOR is an energy formula that can enhance mental and physical performance.* It combines the power of patented, registered and certified extracts (granted full GRAS status by FDA) of **GREEN TEA LEAVES** (Sunphenon® CF-T) and **CHOCOLATE** (Chocamine®). Together they naturally provide caffeine, and may offer an array of amazing benefits due to their unique ingredient profiles as they are rich in antioxidants, polyphenols, catechins, EGCG, xanthines, anandamides, amino acids, and other trace nutrients. Reinforced with pharmaceutical grade L-Tyrosine and L-Taurine, it may be a natural way to energize the body and mind, support cognitive and physical performance, increase fat metabolism, and promote health and well-being.*

MOTIVATOR can be used by power, strength, and endurance athletes, or used during any prolonged activity for sustained mental energy and focus.* A large part of training and racing is **MENTAL**, its about brain energy and motivation.

Green Tea Leaves Extract, Cocoa Extract, L-Tyrosine, L-Taurine: naturally provide caffeine, antioxidants, polyphenols, catechins, and EGCG, and may help improve and increase cognitive and physical performance, and fat metabolism.*
