

SUGGESTED USAGE: As a dietary supplement, take 1 - 2 tablets 1 to 4 times daily, or as directed by your healthcare practitioner.

Refrigeration recommended after opening.

HOW IT WORKS: SAmE (S-adenosylmethionine), a compound native to the body, is a critical component of many biochemical reactions, including those that affect brain biochemistry and joint health.* Numerous studies have indicated that SAmE can help to temporarily alleviate aches and pains resulting from overexertion or stress.* In addition, because SAmE is also necessary for the synthesis of neurotransmitters, it plays an important role in the maintenance of a positive mood.* This SAmE is enteric-coated, which makes it very well tolerated and protects it from degradation.*

CAUTIONS/INTERACTIONS: Theoretically, SAmE could increase the effects and adverse effects of products that increase serotonin levels, including 5-hydroxytryptophan (5-HTP), Hawaiian baby woodrose, L-tryptophan, and St. John's wort. In addition, SAmE may interact with MAO inhibitors, L-Dopa, antidepressants and other serotonergic drugs. If you are taking any of these medications or if you are pregnant or lactating, consult your healthcare practitioner before using this product.
