

SUGGESTED USAGE: As a dietary supplement, take 1 softgel 3 times daily, or as directed by your healthcare practitioner.

HOW IT WORKS: CLA Away™ combines the benefits of L-Carnitine (Carnipure™), Guarana and Green Tea Extract (GTE) for active people seeking the nutritional support of Conjugated Linoleic Acid (CLA).* CLA is a fatty acid naturally found in beef and dairy products. L-Carnitine is a non-essential amino acid that facilitates the transfer of fatty acids across the mitochondrial membrane for cellular energy production.* Guarana supports alertness and, associated with Green Tea, may enhance daily energy expenditure.* GTE contributes numerous bioactive compounds, including Polyphenols and Catechins that have been found to help defend against oxidative stress.* When used as directed, CLA Away™ helps support the increased metabolic demands of active individuals.*

CAUTIONS/INTERACTIONS: Carnitine may interact with anticoagulants and thyroid medications. The need for Carnitine may be increased by some anticonvulsants, some anti-cancer drugs, some anti-HIV drugs, pivalic acid and isotretinoin. If you are taking any of these medications, or if you have diabetes or thyroid disorder, consult your healthcare practitioner before using this product.
