SUGGESTED USAGE: As a dietary supplement, take one tablet daily, or as directed by your healthcare practitioner.

HOW IT WORKS: Garlic 5000 is standardized to yield allicin precursors, which convert to allicin when ingested. It is enteric coated so that this conversion occurs in the upper intestine for optimal absorption, as well as to contain the release of garlic's pungent odor. The allicin potential of this product is achieved through a special process that keeps Garlic's moisture low while preserving all of the natural goodness of whole fresh garlic. Enjoy the benefits of this odor-controlled garlic tablet!

CAUTIONS/INTERACTIONS: No interactions or contraindications are known with this product at the suggested level of intake. Do not use this product if you have a known allergy/hypersensitivity to garlic, any of its constituents, or to other members of the Liliaceae (lily) family, including hyacinth, tulip, onion, leek, and chives. Garlic may interact with blood thinning medications, isoniazid, protease inhibitors, and anti-retroviral drugs. If you are taking any of these medications, or any other prescription medication, consult your healthcare practitioner before taking this product.
