

THERMOGENIC STIMULANT MATRIX

Known Adverse Reactions

Some people may experience mild gastrointestinal disturbances such as diarrhoea, abdominal pain, heartburn, nausea and vomiting. In which case, discontinue use. Hypersensitivity/allergy is known to occur in which case, discontinue use.

Cautions and Warnings

If you are of childbearing age, consult a health care practitioner prior to use. If you have high blood pressure, consult a health care practitioner prior to use. Consult a health care practitioner prior to use if you have liver disorder or develop symptoms of liver trouble (such as abdominal pain, dark urine or jaundice). Consult a health care practitioner prior to use if you have an iron deficiency. If you are taking any other medications or natural health products, consult a health care practitioner prior to use, as black pepper/peppermint may alter their effectiveness. Keep out of the reach of children. If overdose or accidental ingestion occurs, call a Poison Control Center immediately. If you have stomach ulcers or inflammation, consult a health care practitioner prior to use. If you are taking anticoagulants or products containing acetylsalicylic acid (ASA) or other salicylates, consult a health care practitioner prior to use. Consult a health care practitioner prior to use if you are taking thins. Consult a health care practitioner prior to use if you have high blood pressure, glaucoma, and/or detrusor instability (overactive bladder syndrome). Consumption with natural health products (e.g. bitter orange extract, typhaine, octapamine, ephedra) or other drugs (e.g. ephedrine) which increase blood pressure is not recommended. Consumption with other caffeine-containing products (e.g. medications, coffee, tea, colas, energy drinks, etc.) is not recommended. This product is not intended as a substitute for sleep. Consult a health care practitioner prior to use if you are taking medications for diabetes, high blood pressure, or seizures. Do not use if you are taking health products that affect blood coagulation (e.g. blood thinners, clotting factor replacements, acetylsalicylic acid, aspirin, fish oils, vitamin E) as this may increase the risk of spontaneous bleeding. Consult a health care practitioner prior to use if you have cardiovascular disease or hypertension, diabetes, prostate disorder, or are taking prescription medication. If you suffer from any psychological disorder and/or condition such as frequent anxiety or depression, consult a health care practitioner prior to use. Consult a health care practitioner prior to use if you are taking antidepressant medications. Consult a health care practitioner prior to use if you are taking alcohol.

Contraindications

If you are pregnant or breastfeeding, do not use this product. Do not consume if you are taking decongestant-containing cold preparations (i.e. phenylephrine or pseudoephedrine). Do not use if you are planning to become pregnant. Contraindicated in high blood pressure and gastric duodenal ulcers.
