

BETTER INGREDIENTS, BETTER RESULTS.®

Magnum Quattro is a unique blend of four specially chosen protein isolates. Isolates are the purest protein sources available, filtered to remove as much fat, lactose, and other non-protein constituents as possible. Formulated exclusively with protein isolates, Quattro typically delivers 12g per serving of the essential amino acids your body needs for optimal results. Every scoop of Magnum Quattro delivers 30 grams of protein through four absorption stages, contributing to a sustained positive nitrogen balance for up to six hours.
