

AFP Peptizyde (Advanced Formula Protease) supports the digestion of food proteins, including gluten, casein and soy. AFP Peptizyde includes DPP IV enzyme activity which aids in the breakdown of casein and gluten.†

Suggested Use: One (1) capsule at the beginning of each meal. Capsules may be opened and contents mixed with food or beverage. Use care not to inhale enzyme powder. Do not use if active ulcers or GI bleeding is present. AFP Peptizyde may be taken with other Houston Enzymes products.

AFP Peptizyde was developed by
Dr. Devin Houston, PhD
Enzyme Biochemist

Do not use if tamper-proof seal is broken. Keep container closed and store at room temperature or in freezer, but do not place in refrigerator due to humid conditions.
