

No-Fenol may be helpful for digestion of those foods high in polyphenols. Digestion of fruits and vegetables may also be enhanced as No-Fenol includes enzymes that break down the components of plant fibers.†

Suggested Use: One (1) capsule at the beginning of each meal. Capsules may be opened and contents mixed with food or beverage. Use care not to inhale enzyme powder. No-Fenol may be taken with other Houston Enzymes products.

This product includes hemicellulase, which may interfere with sustained-release medications that use cellulose, hydroxypropyl cellulose, and/or hypromellose as part of the timed-release mechanism.

No-Fenol was developed by
Dr. Devin Houston, PhD
Enzyme Biochemist

Do not use if tamper-proof seal is broken. Keep container closed and store at room temperature or in freezer, but do not place in refrigerator due to humid conditions.
