

DCP™ has set the standard as the most highly innovative and effective non-otm fat burning formula on the market. Working primarily on PPAR alpha and delta receptors, DCP causes a massive increase in fat burning, without using stimulants that make you feel jittery. DCP (short for Damage Control Protocol) causes your body to burn fat at the level of an elite athlete, causing a rapid leaning of the body and prevention of fat gain. DCP also addresses gene expression of the fat mass and obesity associated protein (FTO) and increases expression of the Uncoupling Proteins that cause the body to burn fat in a futile cycle, generating heat. Finally, DCP triggers activation of various temperature sensitive thermoreceptors, tricking your body in trying to simultaneously heat up and cool off the body, resulting in an even more dramatic fat loss effect. DCP-Live Elite.

Warnings: Do not use this product if you are at risk of or are being treated for high blood pressure, heart, kidney, thyroid, or psychiatric disease, difficulty in urinating, prostate enlargement, anxiety, depression, seizure disorder, or stroke. Consult a healthcare professional before use. Use caution if allergic to shellfish. KEEP OUT OF REACH OF CHILDREN.
