

SUGGESTED USAGE: As a dietary supplement, take 1-2 capsules 1 to 2 times daily, or as directed by your healthcare practitioner.

KEEP REFRIGERATED TO MAINTAIN POTENCY.

HOW IT WORKS: Intestinal bacteria supports gastrointestinal (GI) health and digestion via the processing and absorption of nutrients and the maintenance of a healthy mucosal barrier. Maintenance of a balanced gut ecology is critical for the proper immune system function. Bifido Digest™ combines 9 probiotic strains specifically chosen to help support GI well-being.* The predominant probiotic strain in this formula is *B. lactis* HN019™, which has been clinically evaluated and validated for its ability to support GI comfort, regularity, and decreased feeling of bloat.*

CAUTIONS/INTERACTIONS: Some individuals may experience mild, but transitory GI discomfort upon initial supplementation with probiotics. If you are taking prescription medications, including immunosuppressants, if you have a condition related to immunodeficiency, or if you are pregnant or lactating, consult your healthcare practitioner before using this product.
