

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 1 to 2 times daily. Do not exceed dosage without advice from your healthcare practitioner.

HOW IT WORKS: For centuries, Eastern civilizations have relied on Huperzine as a broadly useful herbal health aid. It was only recently discovered however, that this rare moss extract has the ability to slow the breakdown of acetylcholine - a chemical in the brain that plays a substantial role in cognitive clarity and memory function.* By combining this extract with a proprietary blend of other natural substances that help protect neuronal tissue and improve blood flow (RoseOx®, Ginkgo Biloba, L-Glutamine and more), Protocol For Life Balance® Brain Regain™ may be advantageous for supporting healthy cognitive performance.*

CAUTIONS/INTERACTIONS: Huperzine A should be avoided by children, pregnant women and nursing mothers. There are possible adverse effects in those with seizure disorders, cardiac arrhythmias, asthma, irritable bowel disease and inflammatory bowel disease. This product should not be used by those taking prescription medications or who have a history of heart or pulmonary problems without the advice of a physician. For more information on this product go to www.protocolforlife.com/P3303

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Do not take this product if you are taking blood-thinning or cholinergic medications without first consulting a physician. Keep out of reach of children.
