

SUGGESTED USE: Mix 1 scoop in a 16 ounce glass of water.

Dr. Berg's Electrolyte Powder provides the perfect balance of electrolytes without the added sugar and zero maltodextrin. This product supports hydration, muscle recovery and healthy energy levels.

WARNING: Consult your physician before using especially if you have kidney disease, low pulse rate, or hyperkalemia (high blood potassium). One study did show a risk of small-bowel lesions related to the use of oral drug products containing high amounts of potassium chloride, however our product uses potassium citrate.
