

The human organism is superbly adapted to an environment that no longer exists. Our modern world is totally inappropriate for the bodies we inhabit today. The vast majority of our health and happiness problems result from this mismatch. The solution is to find ways to recreate our ancestral environment in the modern world.

We are descendants of the sole surviving species of genus Homo (the baddest mammalian predators that ever lived)... encoded in our DNA is the potential to reclaim our strength, health and happiness by "putting back in, what the modern world left out." Know more at www.ancestralsupplements.com

Our product line is 100% additive-free... Absolutely no stearates, lubricants, binders, fillers or flow agents... except with our bone marrow product (see Other Ingredients).
