

Suggested Use:

Take ONE (1) capsule once or twice a day with or without food.
Trace minerals are essential minerals needed in smaller amounts. They are involved in many biological enzymes and chemical pathways. Trace minerals necessary for production of proteins in your body and this goes way beyond just hair, nails and skin*. Trace minerals are involved in the production, repair and maintenance of DNA and cellular machinery*. Due to the importance of trace minerals, we have enhanced our formula with extra zinc, copper, iodine, manganese, boron, molybdenum, chromium and selenium.
