

THE KIRKLAND SIGNATURE PROMISE
Quality Purity Potency

Kirkland Signature Ubiquinol is sourced from Kaneka Ubiquinol™. Our ubiquinol provides 200 mg of CoQ10, which helps support heart function and helps neutralize free radicals in the body. Ubiquinol is found in nearly every cell of the body and is a key component in the production of cellular energy. Certain cholesterol-lowering drugs (statins) are known to inhibit the body's production of CoQ10. Kirkland Signature Ubiquinol may help replenish this important nutrient. Vitamin E is an antioxidant and essential nutrient for many cells, including heart muscle cells.

Kirkland Signature Ubiquinol helps support:

- ✓ Heart Function*
- ✓ Antioxidant Activity*
- ✓ Cellular Energy Production*

SUGGESTED USE: Take one (1) softgel daily, with a meal.

Do not use if imprinted seal under cap is broken or missing.
 Keep bottle tightly closed. Store in a cool, dry place, out of reach of children.

*Colors Derived from Natural Sources.

What is Ubiquinol?

Ubiquinol is the major circulating form of CoQ10 in the body. Ubiquinol helps support heart function and cellular energy production.

Statin Drug Users:

Statin drugs can reduce CoQ10 levels in the body. Kirkland Signature Ubiquinol may help replenish this important nutrient.
