

PREMIER SCIENCE

Eskimo-3® Natural Stable Fish Oil® supplement is a source of Omega-3 Fatty Acids, including eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). One of the most clinically-validated nutritional supplements available, Eskimo-3 has been the subject of more than 120 independent, peer reviewed, published clinical trials and studies.

Purity and stability separate Eskimo-3 from other fish oils. Produced from cold water, ocean dwelling fish, Eskimo-3 is guaranteed free of dangerous levels of toxins and pollutants. In fact, an independent test conducted by the government of Ireland (utilizing extremely sensitive testing methods) found that Eskimo-3 was by far the purest of 15 major brands tested. Unlike many other fish oils, Eskimo-3 is not chemically modified to artificially increase DHA and EPA levels, which can compromise stability.

Eskimo-3® and Natural Stable Fish Oil® are registered trademarks of Cardinova Aktiebolag.

Contains no sugar, salt, yeast, wheat, gluten, corn, dairy products, artificial coloring, or artificial flavoring. This product contains natural ingredients; color variations are normal.

Manufactured by **Cardinova International**, Uppsala, Sweden. Product of Sweden.
