

Green Tea Fat Burner™ increases your calorie burning ability in fast-acting Liquid Soft-Gels. This product has been formulated to deliver a highly concentrated form of Green Tea Extract combined with caffeine that, while not literally "melting" fat off the body, has been shown to:

- Increase calorie burning (thermogenesis)
- Kick-start your fat burning ability (fat oxidation)
- Supply powerful antioxidant protection

When used in conjunction with a reduced calorie diet and exercise, this product can help you achieve your weight loss goals.*

Green Tea Extract – delivers a wide range of health-promoting ingredients, including superior levels of EGCG.*

EGCG – the most powerful and most abundant antioxidant found in tea leaves. This product contains a full 400 mg of EGCG per maximum daily dose.

Vitality Boost – a blend of adaptogenic botanicals that contribute beneficial phytonutrients.

Antioxidant Boost – a combination of nutrient-dense "super fruits" that help to protect against cell-damaging free radicals.

NOTICE: For best results we recommend limiting the consumption of additional caffeine while using this product (e.g. less than three 8 ounce cups of coffee per day).

Green Tea Antioxidant Power

Green Tea is one of the most powerful antioxidants found in nature. One serving of **Green Tea Fat Burner™** has higher antioxidant activity than one serving of most fruits and vegetables. **Green Tea Fat Burner™** delivers significant antioxidant protection in addition to weight loss support.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
