EQUABALANCE™ ratio

This specific combination of Omega-3 EPA and DHA together with Omega-6 GLA ensures a synergistic and balanced formulation to meet the body's individual needs.

*DHA contributes to maintenance of normal brain function. The beneficial effect is obtained with a daily intake of 250mg of DHA.

Actual capsule size

Highly concentrated naturally sourced Omega-3 with Omega-6

*DHA contributes to brain function

60 one-a-day capsules

5 years to adult

Higher concentration

Each capsule of EQUAZEN® triple strength provides three times the level of fatty acids EPA, DHA and GLA as regular family capsules.

Formerly known as EQUAZEN® eye q

The essential facts

Essential fatty acids, such as Omega-3 contribute to good health.* They play a role in almost every cell of your body.

Oily fish are a great source of the important Omega-3 fatty acids EPA and DHA. However, many people are not eating enough.

The Government recommends eating at least two portions of fish per week, one of which should be oily fish.

A formulation with no fishy taste, smell or reflux

EQUAZEN® triple strength is a one-a-day easy to swallow formulation. Using enteric coating technology, capsules are gastro-resistant and designed to delay the release of fish oil from the stomach to the intestines, avoiding possible fishy taste, smell or reflux.

Directions for use

- 1 capsule per day with food. When starting supplementation it is recommended to take 2 capsules per day for the first 12 weeks to help balance essential fatty acids in the body.
- Consult your doctor or pharmacist if you are pregnant, on any medication, or if you have any medical condition before starting supplementation.
- Do not exceed the recommended daily intake.
- Food supplements should not be used as a substitute for a well balanced and varied diet and healthy lifestyle.

Storage instructions

- Store in a cool dry place
- Store out of children's reach

Typical Nutrition Information

Provided by nature, blended by experts

EQUAZEN® triple strength is an easy and convenient way to get a balanced intake of Omega-3 and Omega-6.

Only high-quality natural ingredients are used to produce EQUAZEN® triple strength. Our oil comes from sustainable sources of oily fish, such as sardines, renowned for their naturally higher level of EPA.

Independent testing ensures our oils comply with stringent EC purity rules.

Suitable for both adults and children, but for children aged under 5 years, we recommend EQUAZEN® baby, children's chews or children's liquid – vanilla or citrus flavour.

EQUAZEN® can be taken by all ages
