Formulated for Women ★ Laboratory Tested

Joint Flex for Women is scientifically formulated to promote bone health, joint repair and flexibility in active, athletic women of all ages. The combination of a patented non-acidic form of Vitamin C called PureWay-C®, Zinc, Boron and MSM are essential for the construction and repair of connective tissue and maintenance of healthy joint cartilage. Joint Flex for Women also promotes healthy bone structure, reduces joint inflammation and specifically targets lower back, knee and hip pain, which are the most common sources of pain affecting active women.

The inclusion of Hyaluronic Acid, which is the most active form of the glucosamine group, works as a shock absorber lubricating the fluid in the joint tissues to alleviate joint pain and promote full range of motion. Horse Chestnut Extract provides additional support for joint mobility and flexibility.

Don't let joint pain inhibit your progress.

TRUST RESULTS. BE EMPOWERED.
