THERAPEUTICS, INC.

FEMTONE™

Contains phytoestrogens to support
female glandular function*

90 ULTRACAPS™

Dietary Supplement

Throughout history, women have used a variety of herbs such as dong quai, licorice root, chaste tree berry, black cohosh, fennel, and false unicorn root. Modern research shows these plants contain natural compounds called phytoestrogens, which offer support for female glandular function.* FemTone™ hormone balancing formula provides phytoestrogens from high-quality plant extracts with hesperidin and ascorbic acid. It also provides Vitamin C and bioflavonoids which are highly concentrated in the ovaries.*

Caution: Discontinue use and consult a healthcare practitioner if you have a liver disorder or develop symptoms of liver trouble, such as abdominal pain, dark urine, or jaundice. If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.
