

THE EMERGENCE OF A DOMINANT MUSCLE BUILDER*

Groundbreaking DNA Gene Chip Analysis has revealed the precise mechanism that triggers unprecedented 3.5 times greater muscle cell growth.*

SHOCKING MUSCLE GROWTH RESEARCH IS WITHIN REACH*

New science has revealed that mTOR-p70S6K is the trigger directly responsible for extreme muscle growth. Branched Chain Amino Acids (BCAAs) were identified to activate increased mTOR-p70S6K cellular signaling resulting in profound muscle gain. **Activation of the muscle cell growth signals increased by 350%** (3.5 times greater)* with 8,180 mg (8.18 g) of 45% Leucine, 30% Valine and 25% Isoleucine, pharmaceutical-grade BCAAs.*

IS ORAL SUPPLEMENTATION EFFECTIVE?

"That's great in a lab, but if I take it, will it work?" The answer is definitively, yes! Oral liquid supplementation of 8.18 g at a 45:30:25 ratio of BCAAs boosted BCAA concentration in the blood and in muscle cells and activated the mTOR-p70S6K anabolic signal. This confirms that drinking your BCAAs (as in AMINOCORE™) in a soluble liquid form replicates the research! You can literally implement this groundbreaking technology TODAY!"

A MUSCLE CELL SAVED IS A MUSCLE CELL EARNED

The mechanism behind AMINOCORE's ability to prevent catabolic muscle loss has been discovered. Molecules called MAFbx increase dramatically during training. They lock on to muscle cells and act like a shredder, literally destroying muscle tissue. AMINOCORE™ to the rescue. The gene chip analysis showed a dramatic decline in the number of MAFbx with 8.18 g BCAAs. This is the number one reason that many people who hit the gym cannot gain or hang on to significant muscle size.*

INTELLIGENT DIETING SUPPORT*

Caloric restriction, limiting carbs and increased cardio intensity; all essential for effective dieting, and all rapid ways to breakdown and flush away muscle. Muscle breakdown takes place when you're dieting. Less muscle reduces your metabolism and, as a result, your ability to burn calories. AMINOCORE™ feeds your muscles while dieting and dramatically limits muscle loss. The net effect: you retain muscle, melt fat and maintain a higher metabolism. AMINOCORE™ the dieting secret you've been looking for.*

ALL BCAAs ARE NOT CREATED EQUAL!

NO FILM, NO FOAM & NO PARTICLES!

Only AMINOCORE™ has InstaCLEAR™ BCAAs. Other BCAA formulas can foam up when shaken and form an oily film on the surface. Or worse, leave insoluble particles behind. InstaCLEAR™ BCAA technology creates a 100% soluble BCAA drink.

Other BCAA drinks include glutamine, taurine or arginine passed off as real BCAAs. Those amino acids have their place, but they are NOT Branched Chain Amino Acids (BCAAs). AMINOCORE™ is a 100% Pure Pharma-Grade 45:30:25 ratio BCAA drink. With added Ketosocaproic acid (KIC) to further enhance the buffering of lactic acid (muscle toxin) and increase the levels of L-Leucine at the site of muscle. AMINOCORE™ contains additional highly bioavailable B-Vitamins that not only enhance the anabolic environment, they help to release additional metabolic energy.*

* Combined with intense resistance training, research has shown that 8,180 mg of BCAA in a 45:30:25 ratio increase protein signaling within muscle cells to upregulate protein synthesis (growth) by 350%. Research conducted at the Nobel Prize winning Karolinska Institute in Stockholm, Sweden.

GET THE ANABOLIC EDGE!

AMINOCORE™ is the ultimate supplement to take during every workout for rapid anabolic growth. Zero banned ingredients & tested for banned substances by a 3rd party certified organization. Taken during intense training, AMINOCORE™ immediately increases your body's ability to build hard, lean muscle through 2 primary processes:

1. Increases Anabolic Muscle-Building Signaling by 350%*!
2. Reduces the Breakdown of Muscle Tissue During Intense Workouts*.

INSTACLEAR™ 3-PHASE SOLUBILITY TREATMENT: High-dosage BCAA technology with the highest-grade, freeze-dried BCAAs and with an unmatched taste makes AMINOCORE™ an EASY-TO-MIX drink that you can take to every workout.

Supplement Facts

Serving Size 1 Scoop (10.5 g)
Servings Per Container 111*

Amount Per Serving	% Daily Value
Calories	5
Total Carbohydrate	0 g 0%*
Sugars	0 g *
Vitamin B3 (as Niacin)	20 mg 100%
Vitamin B6 (as Pyridoxine HCl & Pyridoxal-5'-Phosphate [P5P])	2 mg 100%
Vitamin B9 Bio9™ (as Folic Acid & 5-Methyltetrahydrofolate)	400 mcg 100%
Vitamin B12 (as Methylcobalamin)	6 mcg 100%
AMINOCORE™ BCAAs (45:30:25)	8,180 mg *
L-LEUCINE (45%)	3,681 mg
L-VALINE (30%)	2,454 mg
L-ISOLEUCINE (25%)	2,045 mg
α-KIC (Alpha Ketosocaproic Acid)	50 mg *

* Percent Daily Value based on a 2,000 calorie diet. † Daily Value not established.
OTHER INGREDIENTS: Citric Acid, Malic Acid, Natural and Artificial Flavors, Sucralose, Acesulfame Potassium, Natural Color (Purple Carrot (Daucus carota, Root) powder), Lecithin (Sunflower).

DIRECTIONS: To activate protein synthesis and increase muscle recovery, take 1 scoop of AMINOCORE™ during weight training or any athletic event. On non-training days, AMINOCORE™ can be taken anytime on an empty stomach. Mix one scoop (10.5 g) into a 17 oz. (approx. 500 ml) bottle of water or a tall glass of water (2 cups). Shake or stir well. Take during workouts.

WARNINGS: Use only as directed. Not recommended for persons under 18 years of age unless prescribed by a healthcare professional. People sensitive to Vitamin B3 (Niacin) may experience flushing of the skin that is generally mild and transient. Do not use if you have any pre-existing medical conditions; if you are chronically ill, you are pregnant or breastfeeding, you are taking prescription medication or over-the-counter drugs, discontinue use if you experience any adverse reaction. Store in a cool, dry place away from direct sunlight. Keep out of reach of children and pets.

ALLERGEN WARNING: Produced in a facility that also handles Milk, Soy, Egg, Peanut, Tree Nut, Fish, Crustacean and Shellfish products.
*Due to natural variations in product density, resulting from settling and/or humidity, the values are approximate. Product is sold by weight.
