Omega Q Plus® 100 delivers 100 mg of highly bioavailable CoQ10 for even greater cardiovascular support

- Formulated for serious heart health support
- Ideal for anyone over age of 60 or on statin medications
- Provides 100 mg of highly bioavailable Hydro Q-Sorb CoQ10
- Supports overall cardiovascular health and function
- Helps maintain healthy blood pressure
- Supports your heart, brain and eyes
- No repeating; no fishy burps
- Developed by integrative cardiologist Dr. Stephen Sinatra
- NSF tested and certified

Omega Q Plus 100 includes a full 100 mg of highly bioavailable CoQ10 plus l-carnitine, B Vitamins and Omega-3 fatty acids for comprehensive heart health support and enhanced energy production. If you're over 60, concerned about cardiovascular health, need a bigger energy boost, or are taking a statin drug, **Omega Q Plus® 100** is definitely for you.

Plus the benefits of twice as much CoQ10:

- Extra energy production at the cellular level
- Additional CoQ10 replenishment (vital if you're over 60 or take a statin drug)
- Even greater cardiovascular support

Highly absorbable Hydro Q-Sorb® CoQ10—for incredible energy and antioxidant protection

Cardiologists often call CoQ10 the "miracle nutrient" because it fuels your cellular power plants. This is especially important for your heart—a muscle that requires huge amounts of oxygen and energy to function. Plus, CoQ10 acts as a potent antioxidant—hunting and destroying free radicals that can damage your heart health and overall well-being.

Omega 3 vitamin **Omega Q Plus 100** features a patented, cutting-edge form of CoQ10 called Hydro Q-Sorb, which is **7 times more bioavailable**^{1,2} than ordinary powdered CoQ10 for:

- A strong, healthy heart
- Healthy blood pressure
- Outstanding overall cardiovascular function
- Abundant cellular, physical, and mental energy
- Superior antioxidant protection for healthy aging

DHA-rich Calamarine® Omega-3 Oil—the discovery that makes ordinary fish oil obsolete

Calamarine omega-3 oil is naturally richer in DHA than ordinary fish oil! And growing research suggests that a diet high in DHA works hard to **support your blood pressure, vascular elasticity and tone, and circulation, plus supports your brain, nerves, eyes, and digestive tract.**

Calamarine oil isn't sourced from fish. It's a clean and potent extract of deep-water calamari (squid). This is good news on many fronts. For one, they are an extremely eco-friendly, sustainable source of omega-3 fatty acids. Plus, **Calamarine** has **NO fishy aftertaste** and won't cause "fishy burps." In fact, in a recent survey of Calamarine users, 9 out of 10 responders reported no fishy burps![®]

[®]According to a July 2015 Consumer Survey of Calamarine product users with 118 responses.

In addition to the cardio-power pair of Hydro Q-Sorb CoQ10 and Calamarine omega-3 oil, omega 3 vitamin **Omega Q Plus 100** also gives you 4 additional heart-healthy nutrients for unparalleled nutritional support:

1. **L-Carnitine**—works hand in hand with Hydro Q-Sorb to increase energy and improve cardiovascular health
2. **Folic Acid**—an important player in supporting healthy homocysteine levels and an essential nutrient for keeping your blood vessels healthy
3. **Vitamin B6**—vital to over 60 different enzyme processes in your body and considered one of the key vitamins for overall health
4. **Vitamin B12**—works in combination with other B vitamins to support healthy homocysteine levels, enhance energy production, support cardiovascular health, and even support your intestinal well-being and immunity!

Ingredients and Dosage

Doctor's Suggested Use: Take 2 softgels once daily with a meal. For added support, take 2 softgels twice daily with a meal.

Serving Size: 2 Softgels

Servings Per Container: 30

Ingredient	Amount Per Serving	% DV
Calories	15
