 \*\*350 mg is the minimum fill per softgel. Due to the natural variability of krill oil, each softgel may include more than 350 mg to ensure label potency.  
<sup>†</sup>Salts and other impurities are removed from Superba2™ krill oil via a patented process to provide the purest krill oil available.

**With Phospholipids for Easy Absorption<sup>†</sup>**  
 Unlike fish oils, krill oil carries Omega-3s in the form of phospholipids that deliver the fatty acids to your body's cells. Standard fish oils lack this phospholipid complex.
