

### Why Organic Whole-Food Complexes?

Our bodies understand—and seek—organic nourishment, for organic whole foods deliver the ideal form of essential micronutrients that allow us to thrive. Our Earth understands—and celebrates—organic cultivation, which reduces the burden of the toxic “ides”—pesticides, fungicides, and herbicides. And our organic whole-food complexed vitamins understand and speak your language—the language of life itself.

**New Chapter®** will donate a portion of the net proceeds from this product to **The Organic Center**, whose mission is to generate credible information and communicate the universal benefits of organic farming and products. For more information about **The Organic Center**, visit [www.organiccenter.org](http://www.organiccenter.org).

### Luna Nueva—New Chapter's Organic Farm

Enjoying the ecosystem of the pristine Children's Eternal Rainforest in Costa Rica, **New Chapter's** organic spice estate serves as a model for the organic cultivation of ginger and turmeric, and radiates a purity that reflects our commitment to environmental preservation and nutrient-enhancing growing practices.

† **Probiotic Nutrients™**, exclusively from **New Chapter®**, are created by the two-stage culturing activity of organic *Saccharomyces cerevisiae* and three species of *Lactobacillus*: *acidophilus*, *bifidus*, and *rhamnosus*. These beneficial probiotics culture the listed vitamins, organic milled soy, and food concentrates, creating 100% whole-food complexed nutrients that are remarkably easy to digest and utilize, while simultaneously offering naturally occurring phytonutrients such as soy isoflavones, beta glucans, bioflavonoids, glutathione, lipoic acid, and enzymes.
