Quick view

- Promotes healthy intestinal microflora
- Helps promote optimal digestion
- For good overall health
- Helps Digest Food Efficiently*
- Promotes Optimal Digestion*
- Helps Optimize Breakdown of Fats, Carbohydrates & Protein*

Many of us experience digestive issues that impact sleep patterns, exercise and participation in social activities. Because our lives are hectic and busier than ever, many of us have poor diets, and it can be a struggle to eat foods that are rich in enzymes.

Our body produces all the enzymes we need when we are young, but as we age, we become enzyme deficient. Digestive enzymes assist the chemical breakdown of food into smaller, absorbable components.* Digestive enzymes are also needed to extract essential nutrients from food, transform food into energy and rebuild cells.*

Our special Probiotic with Digestive Enzymes formula also contains the healthy bacteria found in probiotics to promote a balanced and healthy intestinal microflora.* This safe and effective blend of probiotics with digestive enzymes will help promote optimal digestion and overall good health.*

This product does not contain any gluten.
