Omega-3 Concentration

1 MegaRed® Advanced 4 in 1 500 mg softgel = 1 standard fish oil pill

What are Omega-3 fatty acids, EPA and DHA?

Omega-3s are critical to human health and provide the building blocks for all your cells.

EPA and DHA are two different types of Omega-3s. Studies have shown that higher intakes of EPA and DHA help support some of the most relevant areas of heart health.*

What is Krill?

Krill are tiny crustaceans that thrive in the frigid waters of the Antarctic. Differently from fish oil, oil from krill carries its Omega-3 in a phospholipid form which help absorption in the human body.* The krill used in this product is 100% pure and harvested below conservative international catch guidelines.
