

EVIDENCE-BASED

Ginkgo Biloba Plus™ contains Ginkgo Leaf Phytosome, which combines one part standardized ginkgo extract with two parts phosphatidylcholine. Research indicates Phytosomes are absorbed more effectively than non-Phytosome products.* With this enhanced delivery, more of the key compounds get where they're needed most—to the cells in the body.*

This formula was developed in accordance with the safety and efficacy standards set forth by the German Commission E, which is the worldwide recognized authority for effective herbal remedies.
